The question of increasing the number of the members of the Reichstag is now being much discussed in the German newspapers. According to the electoral law of the 31st of May, 1869, one member is to be elected in every State of the German empire for every 100,000 inhabitants, and an additional member is allowed for the excess number if it amounts to 50,000; if the population of a State does not amount to 100,000 in all, one member only is to be allowed for it. The number of the representatives of the late North-German Confederation was fixed on this principle at 397, when the southern States entered the confederation it was increased to 382; and 15 more deputies for Alsace-Lorraine were added by the law of the 25th of June, 1873, so that the total number of the members of the Reichstag is now 397. This number, however, is not in accordance with the population of the empire, as ascertained by the census of the 1st of December, 1880, and a motion has been accordingly introduced in the Reichstag by the Social Democrats, the South German Volkpartei, and the Danes, for a further increase in the number of its members.

The German War Office has published some very striking statistics with regard to the comparative health of the German and French armies. According to these returns, the average number of men in the infirmaries on every day is twenty-five per thousand in France and only eleven in Germany, while putting together the number of days spent in the hospital or sick room, each French soldier is incapacitated from duty during seventeen days in the year, as against only thirteen days for the German soldier. The rate of mortality, according to the same authority, is nearly twice as high in the French army, being nine per thousand, as against five per thousand in Germany. There has not been a single case of small-pox in the German army during the past year, while in France there have been 1,037 cases, of which ninety-eight proved fatal.

MOLINE, Ill., July 14, 1881.
H. H. Warner & Co., Rochester, N. Y.
GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles," as a system and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedy, or any other, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

H. H. Warner
Mayor of Moline.

H. H. Warner & Co., Rochester, N. Y.
MY DEAR SIR: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and in a few days I was a well man to-day.

THE RESPONSIBILITY.

The New York Tribune and Herald are having a pretty row over some dispatches Reid of the Tribune sent Garfield, and which the Herald published recently to show that Blaine was responsible for the war on Conkling. The Tribune says: "We propose to show the Herald correspondent lied when he said he got the dispatch from Garfield, or that Garfield showed it to him, or that he heard of it at the White House. The Herald's correspondent says that he had an opportunity to know that the pressure came from Blaine and Blaine's friends whenever the point of acceptable compromise was reached. He adds: "To give you one significant instance. The President showed me one day, and allowed me to copy, a dispatch which he received from New York, in the following words." The reader will remember that the dispatch was not addressed to Garfield, but to a friend who was asked to lay the points of it before him. Now to read what that friend says:

CLEVELAND, O., Jan. 7, 1882.
"I write in haste to tell you I never received the dispatch sent to me. It must have been stolen from the wires. I have it here under lock and key. Nobody has ever seen it but myself; not even Garfield. I read it to Garfield, and you remember what he at once said about withdrawing Robertson's nomination. They may take him out of that Senate head first, or feet first. I will never withdraw him. I have only a minute to catch the mail.

Yours faithfully, JOHN HAYS.
The Tribune calls on Mr. Bennett to give to the public the name of the man who thus uses his paper to attack Garfield's memory.

Allen A. Curtis of Austin, was in Reno yesterday. He refused to talk politics, and says under no condition will he be a candidate for office. The talk of running him for Governor is without his permission.

Explosion of Powder Works.
SAN FRANCISCO, January 11.
An Oakland dispatch reports the Hercules Powder Works at Pinole blown up. Several men hurt and some killed. No further particulars.

A dispatch from Pinole says: Either the mixing house or the boiler house near the works blew up. Seven buildings are wrecked, one Chinaman killed and several white wounded.

A San Rafael dispatch says the explosion shook houses in that town as if by an earthquake, at a corresponding hour, which was evidently due to the explosion.

The shock was not noticeable in this city.

Fire at Los Angeles.
SAN FRANCISCO, January 10.

A Los Angeles dispatch says a fire broke out in a restaurant this morning, spreading to adjoining buildings, burning the Occidental Restaurant, the stores of Vigoris Hoper, Reynolds & Co., and Hagle and Bohner's saloon. The United States Hotel was considerably damaged. Loss estimated at \$100,000 on buildings and stock. Insurance about \$80,000.

White Sugar Up.
NEW YORK, January 11.

The stoppage of the works of Havemeyer & Elder's sugar refinery at Brooklyn and destruction of several hundred thousand dollars worth of sugar, has sent hard, or white sugar up from one-quarter to three-eighths of a cent per pound. Havemeyer's output was nearly \$100,000 dollars a day.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

A New Chapter in Blaine's History.

NEW YORK, January 11.

A Sun's Washington special says: A new chapter in the history of Blaine's diplomatic career has come to light. His attempt, undertaken without the sanction of the President or Congress, to create a great American league, has stirred up a deal of feeling. His friends still insist that if the Administration had been wise it would have retained him and his policy. It is known that he wrote two letters directly to the South American governments without consulting with the representatives in Washington, and another to our representatives in those governments, besides. He first invited the Governments to send delegates here, and, second, instructed our representatives to urge the acceptance of the invitation and to promise that this Government would bear all expenses of the convention. One of the objects of the convention was to concoct a joint tariff discriminating against all Europe and in favor of all American Governments. The scheme was to form a sort of political and commercial league between the United States and South America. European legations in South America were put on the qui vive at once, and it was easy for them to throw obstacles in Blaine's path. Their commercial and financial influence in South America was entirely too potent, and the projected conference of American powers was nipped in the bud.

Opinion of Another Physician.

WASHINGTON, January 11.

Dr. Dutton, now of Massachusetts, who was physician of the Illinois State Hospital for the Insane at the time Luther Guiteau, the father of Charles J. Guiteau, visited and spent some time in that institution, has written a letter to a gentleman in this city, in which he says he remembers with great distinctness that the Elder Guiteau exhibited most unmistakable evidences of insanity—evidences so clear and convincing as to leave no room to doubt he was an insane man; that Dr. McFarland at the time was, and is now, of the same opinion.

Statement Denied.

WASHINGTON, January 11.

The published statement that Gen. Grant has written to Senator Miller of New York, to withdraw his name from the list of incorporators in a bill providing for an incorporation of the Nicaragua Canal Company, is pronounced by Miller to be entirely without foundation so far as he knows. Senator Miller of California, who introduced the bill, says he has read no such request, and has no reason to believe that Grant entertains any intention of withdrawing from the project.

More Gossip.

NEW YORK, January 11.

The Tribune's Washington special says: It is stated that President Arthur has not actually decided to nominate Sargent for a place. Logan and Cameron are actively at work for Chaffee's appointment, and Grant favors it. If it is decided to make any change at all in the Interior Department, which is not certain, Chaffee's chances for it are said to be equal to those of any other aspirant.

The All Day Dead Lock.

ALBANY, January 11.

The dead lock continues and the Legislature is still unorganized. Tammany demands the Democracy to withdraw Jacobs as a candidate for Vice-President of the Senate.

Too Handy With a Pen.

NEW YORK, January 11.

Star Route Cases.

WASHINGTON, January 11.

The star route cases came up to-day. Bliss conducted the prosecution. All the accused were present. Bliss stated the position taken by the Government in these cases.

The Flatheads Causing Villard Trouble.

CHICAGO, January 11.

A Times Helena special says: Last Thursday the Flathead Indians ordered the Northern Pacific surveyors, at work on the reservation, to cease

operations, and compelled them by menaces to obey. The Indians have defied the authority of the chief who gave the surveyors permission to run their lines, and are collecting at a point 35 miles west of Missoula, with the avowed purpose of preventing the iron horse from covering their lands. They are all opposed to railroads. The surveying parties must abandon their work unless military protection is furnished.

A Cool Murderer.

NEW YORK, January 11.

About the coolest murderer ever condemned to death, is Sindram, who killed his landlady. He sleeps and eats well, and to a reporter to-day he said, "I feel perfectly serene. I have just been reading Oscar Wilde's lecture and find it interesting, though I can't tell what he is driving at. I never saw anything nice about a sun-flower."

"How do you spend your time?" asked the reporter.

"Reading magazines and the like. I don't read the Bible any more than when I was a free man. If I was going to be hanged on Friday next I would be just the same as now. What's the use of fretting and praying, and reading the bible? That does a man like me no good."

A Rough Ballgame at Court.

MOUNT VERNON, Ky., Jan. 11.

There was a disgraceful scene in the court room yesterday, during the trial by Judge Bradley of a murder case. John Mullens, a witness, was drunk and insolent, and was first fined, and then ordered under arrest by the Court. Mullens and his father resisted, and both being powerful men, made a wild scene of disorder, during which the audience and jury fled in a panic. Several shots were fired and many persons knocked down, but no corpses were discovered. Both men were finally jailed and the trial, by mutual consent, was put over to the next term, the jury having disappeared.

Oh! It takes so much to clothe my family; my savings soon disappear; I am making no bank account for my old age! Very well, my friend. You may be like Franklin, paying too much for the whistle. Let us volunteer a word. Perhaps you don't keep yourself posted, and unnecessarily pay two prices for what you buy. All kinds of wearing material, you should know, are very low. One cent, in a postal card and sent to the Red House Trade Union, of Sacramento, and your name and address thereon, will insure you in return a complete price-list of everything necessary to your wants, a description of the same, the price and true value. The house always carries a special line of extra weight goods in suits, overalls, jumpers, etc., manufactured expressly for use on this Coast. This house makes a special business of country orders. They have a department \$1000 expressly fitted up for this purpose—and not on paper, as so many are. Send for their price-list. It will be money for you. Address: Jan 11th RED HOUSE, Sacramento.

One Experience From Many.
"I had been sick and miserable so long, and had caused my husband so much trouble and expense—no one seemed to know what ailed me—that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them as recommended. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said, 'Hop Bitters for Hop Bitters!' long may they prosper, for they have made mother well and I am happy."—J. H. MORTON.

PERSONAL

D. A. Bender and C. E. Laughlin, Carson, were in town last evening.

H. N. Hurd, of the upper sink, has come to Reno to spend the winter.

Judge Hillyer, of the U. S. District Court, is reported in a precarious condition.

J. M. Dormer, of the Candelaria True Fissure, was a passenger for San Francisco last night.

Senator J. D. Hammond, of Carson, left on the overland this morning for a six weeks' business trip to New York.

General George S. Davis and John Mahoney, County Clerk of Storey county, were on the west-bound express last evening.

Sam Jones passed through last evening en-route to San Francisco, with the remains of his brother, Henry Jones, who died in Gold Hill a day or two since.

C. W. Hincheloff and R. W. Dunn, President and Superintendent of the Nevada Central Railroad Company, were passengers for San Francisco last night.

A Sound Institution.

The First National Bank held its annual meeting yesterday and re-elected D. A. Bender, C. T. Bender, G. W. Mapes, Allen A. Curtis and A. H. Manning, Trustees. The Board then declared a dividend on the capital stock. After paying the dividend there will still be a surplus fund of \$10,000. This is a good showing for a year and a half's business in dull times, and shows that there is no excessive dividends or expenses, or any kind of recklessness. C. T. Bender, the cashier, is establishing a reputation for foresight and watchfulness which must be very gratifying to a young man like him. D. A. Bender is taking a position among the solid financiers of the coast.

Cattle in Church Hill.

All the cattle on the Carson sink are contracted for, to go to Belleville, at seven cents a pound now and eight cents in February. Wm. Bailey is feeding over 300 head. Pike sold his late in December for seven cents. D. W. Whitman is feeding 120 head. Williams and Goodwin are trying to engage them. James Wright is supplying the Hawthorne market. Lem Allen started for Belleville with 150 head, contracted at seven cents. He will take another drive of about 50 head the first of February that he will get seven and a half cents a pound for.

Horse Racing in Winter.

On Wednesday and Thursday of last week there was racing on the upper sink of the Carson at St. Clair. They were all running races among home horses. About \$300 changed hands. One man complains that he got a little full, and was badly galled by the boys. Court week there will be more racing at Stillwater. Only one race is filled yet. That is between Chip's Lucy and Brown's Gray, for \$50 a side.

A Hard Pillow.

On Monday evening a habitue of an opium den in Virginia discovered that the pillow he was using was the dead body of a man covered by a quilt. The Enterprise says the coroner found it to be a Chinese body that had been dead for two or three days. The keeper of the place said he came in off the railroad sick.

SOCIABLE STILLWATER.

The Whole County of Churchill at One Dance and Everybody Happy.

STILLWATER, January 9.

Ed. GAZETTE: A basket party in Stillwater, given by no one in particular, was an immense success last Thursday evening. At 1 o'clock in the afternoon people began to arrive in buggies, carriages, wagons and on horseback, until the usually quiet town was alive with merry-makers. At 7:30 the Court-house was lighted up and the dance was commenced to the music of Case and Jackson, of Reno, with S. A. Doane as floor manager. At 12 o'clock all partook of an elegant supper at J. M. Sanford's hotel, and then danced till daylight. Miss Maggie Kenyon, of Ragtown, was perhaps the best dressed lady, and with her blonde hair and beautiful face and figure, she would be admired anywhere. She wore a silk overdress with velvet skirt, knitted with cords, and jet and white tie. Mrs. Ira H. Kent, daughter of Senator Kaiser, looked exceedingly well in a walking suit of brown cashmere, white tie, hair dressed simply, and gold chain with ornaments. Miss L. Walker, sister to our Sheriff, was one of the handsomest ladies present. She is a semi blonde, and was charming in a suit of brownish green. Mrs. Judge Brannin was stylishly dressed in black cashmere and white lace, hair combed back and caught with a richly carved gold comb. Miss Angie McGee, of the Upper Sink fascinated the gentlemen, in a light colored suit, white lace scarf, her rich heavy hair fastened at the back in a heavy coil. Miss Susie McGee was dressed in black with gold ornaments. She is a very graceful dancer. Belle McGee wore a dark walking suit. Miss Ellen McGee danced splendidly in a light walking suit. Mrs. Wm. Murphy wore a black suit, white collar, and her hair plain. Mrs. W. H. A. Pike, wore a dark navy blue with cherry colored tie, hair combed back in plaits. Mrs. S. A. Doane wore a suit of greenish hue, and hair plain. Miss Lizzie Kinkaid, of Old River, looked sweet in a dark suit, white cravat at the throat, hair fastened high with an ivory pin. Among the gentlemen were Assemblyman J. W. Richards, Wm. Grimes, Wm. Murphy, I. H. Kent, W. H. A. Pike, Lyman Brown, J. Springer, Judge Brannin, J. T. Walker, P. W. Davis, John Day and others.

DUTCH BILL.

Chief Bradley on the Wrong Track. The three men, Lockhart, Wilkerson and Coughlin, arrested at Winnemucca by Chief Bradley, were closely questioned by the officers in Virginia, but all tell the story as published in the GAZETTE. One of them had a money order dated Soda Springs, Dec. 28th, which is pretty good evidence that he was not in six-mile canyon that day. The officers have examined all their baggage, but found nothing indicating that they are the guilty parties. The men showed letters from all parts of the country, showing that heretofore they had been much thought of, and which goes to prove their good characters. Chief Bradley has evidently got the wrong men. Aaron Rickey went to Winnemucca with Chief Bradley to identify them.

Opera Bouffe.

The Alice Oates Opera Bouffe Company will present Andra's latest success, in three acts, "La Mascotte," with Miss Oates as Bettine, the Mascotte, on Saturday evening. The seats are being rapidly taken, and Miss Oates will be greeted by a packed house. The Carson papers speak in the highest praise of the company. Mr. Jack, the advance agent of the company informed a GAZETTE reporter that he was under the necessity of putting up a notice "standing room only," in both Carson and Virginia.

Amputation.

George Lester, brother-in-law of Senator Jones and Chief Clerk of the Alpha, Exchequer and Imperial mines, underwent amputation of the right foot at Gold Hill last Saturday evening, says the Chronicle. It was found necessary to perform the operation, owing to mortification having begun, caused by the obstruction of the arteries which supply the foot with blood. His surgeon says that Mr. Lester will in all probability survive the shock.

Verdict Rendered.

The jury in the case of Towle vs. Thompson gave in their verdict at 4 o'clock yesterday evening. They gave Towle the full amount of his bill, \$510.

A GOOD MINE.

Judge Marshall Finds one on the Edge of the Town of Reno.

It seems almost incredible that a large and rich body of gold-bearing rock should lie within a mile of the town limits of Reno, where hundreds of men have tramped over it for the last twenty years and remain undiscovered all the time, yet such is the case. Christmas week Judge I. B. Marshall discovered that the large ledge of reddish-colored rock lying on the Hill side north of Reno was not iron ore, as every one supposed, but that it carried a large percentage of gold. He immediately took steps to secure the land, and then put a man to digging. After breaking the crust he got handsome looking ore lying in a nearly north and south ledge, 35 feet wide. It is hardly safe to say how high it goes in the bottom of the ditch, but the top rock went up to \$125 55, and a piece that he thought had nothing at all in it assayed \$12 50. There are immense croppings, chimneys and blow-outs, and it is undoubtedly a very valuable discovery, both for Judge Marshall and for this whole country. It lies on the southeast quarter of Section 35, Township 20 north, Range 19 east, and is a mile and a half north of the Depot Hotel, and a mile west of the English mill. W. A. Walker and R. S. Osburn located extensions yesterday.

The Smallpox Cases.

The two car-loads of emigrant passengers, in one of which was found two cases of smallpox, are now lying at tunnel 15, four miles above Verdi, where they must remain for ten days. Dr. Rhodes examined the cars at Truckee early yesterday morning, and ordered them and the conductor's caboose car on Ellen's side-track at once. A correspondent writes that Truckee was all excitement at once, and the trade in carbolic acid was large. At four o'clock yesterday the three cars with all the passengers and Ed. Pridox and his crew were taken to tunnel 15, and side tracked. They will be supplied provisions by the State. The doctor at Winnemucca examined the cases as the train passed through there, and said it was not smallpox. It is probably in a mild form. Meantime the druggists are getting orders for disinfectants from all along the road.

Jottings.

The Riverside party last night was lightly attended, but the music was good.

The Paymaster of the V. & T. R. R. Co. paid the company's employees at this place about \$1,000 last evening.

Mrs. R. F. Haskell, No. 43 Boston street, Salem, Mass., writes: I have used St. Jacobs Oil on my daughter for a pain in her left side, and it proved itself a wonderful physician. Everybody regards it as a reliable friend.

Board of Pardons.

The Board of Pardons disposed of the following cases yesterday: John Curran—Continued until the April meeting.

John Donovan, a native of Florida, sent from White Pine county August 14, 1874, for murder in the second degree, for life, was pardoned and restored to citizenship.

Thomas Ryan—Denied.

John H. Blavens—Continued for the term.

Application of John D. Crawford, denied.

Application of S. L. Wixon, denied.

Cattle Dying.

The Silver State says: News comes in from Big Meadows that cattle are dying there of some disease similar to the blackleg. It first appeared among the calves early last fall, and now it is among the older cattle, several of which have died.

WASHOE'S CONDITION.

What the Grand Jury Say—Some Recommendation Worthy of Attention.

To the Hon. S. D. King, Judge of the Second Judicial District of Nevada: The Grand Jury, empaneled for the January term of said Court, held in and for Washoe county, herewith present their final report, and respectfully ask to be discharged.

Your Grand Jury would report that in addition to the indictment heretofore brought into Court, we have found one true bill of indictment for arson; one for embezzlement; three for keeping places of resort for the smoking of opium and one for resorting to a place for the purpose of smoking opium.

Upon careful count of funds in the County Treasury, we found as follows: Coin and currency \$23,654 93
Reno Sav. Bank Certificates 2,800 00
Court House Bonds paid 3,180 00
Reno Bridge Bonds paid 2,200 00
Wadsworth Bridge Bonds pd. 1,320 00
Reno School House Bonds pd. 1,880 00
Reno Fire Dept. Note paid 1,172 50
Expenses on Bonds & Stamps 16 00
County War. Nos. 3562-5 pd. 152 50

Total \$36,378 53
The sum agreed with the amount required to be in the County Treasury as per balance sheet of the County Auditor, January 1st, 1881.

We also found in the safe of the County Treasury the sum of three hundred and thirty-one 60-100 dollars, a balance remaining to the Reno School Building Special Fund, which amount is not included in, or counted with, the county funds, but is disbursed under the provisions of a special statute.

The amount of \$2,800 above reported as being represented in the County Treasury by two certificates of deposit issued by the defunct Reno Savings Bank, have been reported upon by a former Grand Jury and have provoked much discussion. These certificates were received by the then acting Co. Treasurer in lieu of coin—the county at that time not having a safe depository for coin.

They were received by him and by the present Co. Treasurer at their own risk. Each of them had the option to receive or refuse them, and each were responsible for failure to collect upon paper in their hands, which by its terms was payable upon presentation. The county can be in no wise responsible either for the taking or holding of them.

The books and accounts of both the Auditor's and Treasurer's offices seem to be well arranged and systematically kept. Documents and newspapers are regularly filed and carefully preserved. Each of these officers are attentive, obliging and trusty. We have examined every claim presented and allowed against the county during the past year. We note that the County Commissioners allowed in March one bill of \$10, which was rejected the month previous. It may have been too hastily rejected in February, but could not again legally be considered.

We find that a certain claim in the sum of \$900 was presented, claiming payment for several thousand miles travel in search of a criminal.

The Board allowed the sum of \$405, contrary to the advice, and notwithstanding the protest of the Dist. Attorney.

If the principle is to prevail that any individual, upon obtaining a requisition from the Governor, may "go to the ends of the earth" at county expense, there may soon be an hundred or two Washoe county officials actively scouring the Atlantic seaboard in search of supposed criminals.

A claim was presented in the sum of \$915 for services of a short hand reporter in taking depositions in a Justice's Court. Said claim was rejected as being illegal and we justify their action in the premises.

In the matter of the allowance of claims we disagree with the Board as to the amounts paid such as the item of \$750 per cord paid for wood at the office of the Pub. Adm. in the month of October; but do not question the intent of the Board to do right.

The last Legislature having abolished the fee system and placed county officers upon a salary regulated by the requirements of each county; we have searched the Records of Claims and prepared exhibits of amounts paid by the county to the Court House officials during the years 1880 and 1881, with the view of testing the merits or demerits of the salary system and its corresponding value to this county.

We find that there was paid to these officers during the year 1880, the sum in round numbers of \$16,000. The amount of salaries paid the same officers in 1881 was in round numbers \$20,000, but there was returned to the county by the same officers an amount of fees collected in the sum of \$9,000, thereby reducing their actual cost to the county to the sum of \$11,000, thus effecting a saving in expenses of \$5,000 for the past year. This annual saving, in addition to the many advantages of the Salary Act in other respects, should

ensure it our honest support.

The office of the County Clerk returns more revenue to the county than the amount of salaries paid the Clerk and his Deputy.

The Auditor's office returns an amount sufficient to pay the salary of the Auditor, and the Sheriff returns to the county one-half the salaries paid to his office.

Again, the removal from our county officers, of the temptation and opportunity to increase their personal gains at the expense of others, is worth thousands of dollars annually to the county. The time of the County Commissioners is now consumed in hunting through lengthy fee bills, construed in favor of the officer, and against the county. Attorneys are not forced to wink at vague items of fees against their clients or suffer the displeasure of the officials. Wealthy counties are not bound to a general fee system which affords their officials an annual fortune, that the officials in less favored counties may barely live, under the same schedule of fees.

Each county may now increase or decrease the salary of any officer, (by change of the statute) without interfering with the interest of other counties; and as times and circumstances change, may hold its legislators responsible for independent, personal action, in regulating salaries according to its ability to pay. The salary act should be amended, but to return to the old fee system would be suicidal and prejudicial to the interests of the people.

We find that J. M. Flanagan, County Assessor, was indebted to Washoe county at the close of his official career, for moneys collected and not paid over in amounts as follows:

Poll taxes collected & unpaid \$1,668 00
Personal property tax collected and unpaid 185 90
Cr. by salary unpaid 175 90

Actual indebtedness \$1,678 00
As soon as said amount was found to be due the county the bondsmen of the Co. Assessor immediately paid said amount into the Co. Treasury.

We find property situated within the county that was overlooked by the Co. Assessor and not assessed of the value of about \$20,000—estimating same by the valuation made in 1880.

With respect to the public rumor or charge that said J. M. Flanagan had not taken the official oath before entering upon the duties of his office, we have no means of ascertaining that fact, as the law does not provide for a record of the same; but requires that the officer shall take the oath at the time he receives his certificate, and that said oath shall be indorsed upon his commission or certificate. (See Sec. 2625, Compiled Laws.) Said certificate, with the oath indorsed thereon, is taken and kept by the officer as his official authority.

The presumption is that the law has been complied with, unless shown to the contrary. With respect to the qualifications of deputies appointed by said Flanagan, there was an utter failure to comply with the law.

Sec. 3069 of Compiled Laws reads as follows: "All appointments of deputies under the provisions of this Act, shall be in writing and shall, together with the oath of office of said deputies, be filed and recorded in a book provided for that purpose, in the office of the Recorder of the county, within which the principal legally holds and exercises his office."

Sec. 2926 of the Comp. Laws requires that a deputy, "before he proceeds to act, shall take the same oath as his principal."

We find no written appointment or oath of office of any of either of said deputies on file, or of record with the Recorder; nor do we learn that a written appointment was ever given to said deputies. The law requires that lists of property shall be delivered to the Assessor under oath or affirmation; consequently it is absolutely requisite that the deputy, as well as the principal, be officially qualified to administer an oath.

In the absence of law requiring a record of an official oath of elective officers, we would recommend that the Board of County Commissioners at the time of making an order (as they are required by law to do) for the issuance of election certificates, still further order, that the County Clerk file in his office a duplicate of the official oath administered.

We would further suggest that the County Recorder, upon a failure of appointed deputies within his knowledge, to file in his office their appointment and official oath for record, report the same to the District Attorney or Board of Co. Commissioners.

We have examined the books of the Sheriff and Clerk of Washoe county, and find the Sheriff's books neatly and plainly kept, and that he has accounted to the Co. Treasurer for all moneys received as required by law. We find the books of the Co. Clerk in like excellent

condition. So far as we have been able to examine said books in the time allowed, we pronounce them correct and creditable to the officers mentioned.

We have examined the County Hospital, or Poor House, and find it clean and neatly kept. Good wholesome food is provided in sufficient amounts. We find seven patients at the building, who speak in high terms of their treatment. We think the bedding insufficient, and would recommend that several pairs of new blanket be furnished.

We find the Court House in reasonable good repair and order.

The jail is in bad condition, the cells very much so, although the three prisoners seem healthy and able to eat a full allowance.

We think the indigent Sick Fund more heavily drawn upon than circumstances require.

The county has furnished land and buildings for County Hospital purposes, which have cost \$12,000. The land is productive and should furnish a portion of food for its inmates, yet it has cost the county during the past year as follows:

Physicians' salaries \$1,170 00
Hospital Steward 1,920 00
Miscellaneous expenses 615 55

Total \$3,705 55
The county has paid in addition from the Indigent Sick Fund:

For Transportation \$50 00
Burial of Paupers 242 50
Relief to Families 556 28

Total \$848 78

These amounts far exceed the cost to the county for such purposes previous to the establishment of the County Hospital. We find the sum of \$4,554 33 too large for indigent sick purposes, and call upon the County Commissioners to reduce this amount.

We advise the rebuilding of the Court House fence.

We have failed in our efforts to find indictments for the selling or furnishing intoxicating liquors to the Indians. We would recommend that drunken Indians, upon their arrest, be confined closely upon a low diet until they state where they obtained their drink, and a strenuous effort be made to obtain convictions through their testimony. (See Stat. 1877, page 133,) by which statute Indians are made competent witnesses. Respectfully Submitted.

There has of late years been a great emigration from Germany to England, and it is estimated that there are 100,000 adult Germans in London alone. In "The German Colony in London," by Dorgeel, just published, he says that among the lower classes in the great towns of England the German is the best hated man of the times. The exceeding thrift in which they have been bred enables Germans to live in comfort, according to their ideas of it, where the English workmen would be in misery. This also applies to the clerk class, who come to large English cities exceptionally well educated, and are willing to work and work well for the very lowest rate of pay.

UNCLE BEN JO'S
GREAT SOUTH AMERICAN PA ACEA.

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1814 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same as a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very disagreeable and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part looks over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by OSBURN & SHORMAKER, Reno, Nev.

THE SUN.
1882. NEW YORK. 1882.
THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining, as always, for all, big and little, mean and gracious, contented and unhappy. It publishes and disseminates, deplored and virtuous, intelligent and obtuse. The Sun's light is for mankind and woman-kind of every sort; but its genial warmth is for the good, while it pours hot discomfite on the blistering backs of the persistently wicked.
The Sun of 1882 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way, all the news of the day, omitting no event of human interest, and commencing upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN. It effected a permanent change in the style of American newspapers. Every important newspaper established in this country in the dozen years past has been modeled after THE SUN. Every important journal already existing has been modified and bettered by the force of THE SUN's example.
The Sun of 1882 will be the same outspoken, truth-telling and interesting newspaper. By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.
We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with THE SUN. Wherever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or Bohemia.
In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of THE SUN's political course.
The WEEKLY SUN gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, full market reports, and a liberal proportion of literary, scientific and domestic intelligence complete the WEEKLY SUN, and make it the best newspaper for the farmer's household that was ever printed.
Who does not know a read and like THE SUNDAY SUN, a four-page sheet of twenty-eight columns, the price by mail, post-paid, is 25 cents a month, or \$6 20 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or \$7 70 a year, postage paid.
The Sunday edition of THE SUN is also furnished separately at \$1 20 a year, postage paid.
The price of the WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free.
